Customer Journey Map

The Customer Journey Map helps developers, agricultural specialists, and farmers understand user needs, identify pain points, enhance the crop recommendation process, and continuously improve the overall farming experience through data-driven insights.

Phase of Journey	Stage – 1 Data Entry	Stage – 2 Data Processing & Prediction	Stage – 3 Recommendation & Feedback
Actions <i>What does the customer do?</i>	• Opens the application. • Enters soil, weather and details. • Submits the data.	• Waits while the system processes the application. • Machine learning model predicts the best crop.	• Views the recommended crop. • Uses the recommendation for farming decisions.
Touchpoints <i>What part of the service do they interact with?</i>	• Web Application • Input Form	• Prediction System • Machine Learning Model	• Result Page • Dashboard
Customer Thought <i>What is the customer thinking?</i>	• "I hope I get the best crop recommendation." • "The process should be easy."	• "The system is analyzing my farm details."	• "This will improve my yield."

Phase of Journey	Stage – 1Data Entry	Stage – 2Data Processing & Prediction	Stage – 3Recommendation & Feedback
Process Ownership <i>Who is responsible?</i>	Farmer	OptiCrop System	Farmer
Opportunities <i>How can we improve this stage?</i>	• Simplify the input form. • Reduce data entry errors.	• Improve prediction speed and accuracy.	• Provide detailed crop insights and fertilizer suggestions.
